Study Questions:

1. Research the panelists' backgrounds and their respective DAOs (in addition to their LinkedIn below, they have many podcast appearances, blog posts, etc.). How do you think their experiences and areas of expertise contribute to the success and evolution of the DAOs they are involved with? What unique perspectives or insights might they bring to the discussion on the future of DAOs?

2. As you learn more about the diverse paths the panelists have taken to enter the crypto industry and DAOs, think about what aspects of their journeys resonate with you. Reflect on your current educational and professional background. Identify the skills and experiences you have acquired that might be applicable to DAOs. How could you leverage these strengths to positively impact the space, and what specific roles or contributions might align with your expertise?
