Study Questions:

1. Describe a DAO project that you might like to develop with your fellow entrepreneurs and explain whether or not you would use legal wrapper(s) for your DAO. If you'd choose not to use legal wrapper(s), identify the legal risks for you as cofounders and the participants of your DAO as a whole. If you'd decide to use legal wrapper(s), identify which one will you use and explain why.

2. Identify parts of the Utah DAO bill that rely on the principles of functional equivalence and regulatory equivalence. Looking at the COALA Model Law for DAOs, what other parts could have benefitted from those two principles?
